Sir/Maam,

To Whom It May Concern,

Our mission is to ignite a movement that inspires – and demands – the eradication of incarceration. We believe in human dignity, second chances, and the unstoppable power of hope.

The Before/During/After Foundation is a 501(c)(3) nonprofit committed to transforming the lives of individuals and families impacted by incarceration. With nearly 2 million people incarcerated in the United States – and over 600,000 returning to communities each year – incarceration affects every one of us, whether directly or indirectly. At an annual cost of \$182 billion to taxpayers, the need for change is urgent and undeniable. Even if you or your loved ones have never been personally touched by the justice system, the realities of reentry affect the communities we all share. We believe that every person deserves the opportunity to rebuild, thrive, and contribute positively to society. At the Before/During/After Foundation, we are dedicated to expanding expectations, shifting outcomes, and creating a future where incarceration no longer defines lives – and you can trust us to lead this critical work.

Sincerely,

Jamison Charles
Founder

Eradicating Incarceration. Empowering Lives.
